

## Business & Management Field Trip Report

Business & Management is an interactive subject where the knowledge is not imparted only through books or user manuals. IBDP Business & Management students had an opportunity to make their first field trip to a retail store to provide them first hand learning experience on the topic of their unit “Types of Business Organizations

The DP students visited Reliance Fresh at Kompally, a chain retail store in Hyderabad. The students prepared their questionnaire to extract information about business functionality of different organizations.

The students had had an opportunity to work with the floor executives to know more about the day-to-day transactions of the store. They gained insight in areas like inventory management; sales point options, and turn over, incentive methods adopted towards employees and stock waste management system.

It indeed was an enriching learning experience for the students and we look forward to more such endeavors in future.
